

Villa Valfiore

Located within a park of century-old trees in an enchanting corner of the hills in the Municipality of San Lazzaro di Savena, just a few kilometres from Bologna, Villa Valfiore is a place where tradition and hospitality converge to create charming and elegant surroundings.

Today, this secluded corner, which has remained untouched by the passage of time, offers its welcome guests a location of the highest order. During the renovation work on the building complex, the continual search for harmony with the surrounding environment found expression in the selection of the most appropriate finishings (flooring, lighting, tone of textiles, etc), to create an atmosphere of total wellbeing.

The Hotel has ample underground parking, allowing direct and discreet access to the Villa and all amenities, thus safeguarding the exclusivity of the entire park area, which remains completely accessible to pedestrians. This ensures that you can enjoy your stay cushioned by silence and tranquility, far from the rush and noise of eve-

ryday. One area of the park that can be reached by following an attractive pathway through the trees, houses the small Church and Oratory of Saint Sebastian and Saint Rocco, built in 1604 for the protection of fields and herds, and still bears testimony to the history and memories of the time. This has now been attentively restored, and is available to host small intimate ceremonies, in a unique location and surroundings that will make for unforgettable memories.
