

Luxury service on highest niveau is timeless

At your service since 1897

The exclusive and fabulously charming Savoy Westend Spa and Wellness Hotel, located in the most attractive and historic part of Karlovy Vary, offers an unprecedented and unique accommodation and spa experience. Attentive renovations of the original and historical buildings of the site, paired with the artful integration of the latest innovations in balneological technology, the Savoy Westend Hotel boasts the ability to meet the requirements of the most demanding clientele. Permit yourself to be entranced by the subtle blend of contemporary and archaic architecture and ambience that this outstanding resort has to offer.

Resort

“A balance between history and contemporary luxury”

Permit yourself to be entranced by a subtle blend of contemporary and archaic architecture and ambience

- ❖ Five art nouveau villas – Savoy, Artemis, Kleopatra, Carlton and Rusalka – interconnected with the spa centre via underground corridors
- ❖ Modern spa centre – Medical Spa Centre
- ❖ Summer garden terrace
- ❖ Monitored underground carpark

Villas

“Delivering Spa & Luxury since 1897”

VILLA SAVOY

This stately building is the dominant feature of the whole resort and its elegance and unique architectonic composition has been attracting hotel guests since 1897. There is a total of 34 rooms available in the 4-storey Savoy villa, including the most prestigious and luxurious, namely the Presidential Suite and the Savoy Suite. On the ground floor of the building there are two restaurants and bars. The Savoy villa is interconnected with the Medical Spa Centre through an underground corridor.

VILLA ARTEMIS

The villa Artemis was built in 1875. It is situated in the middle of a raised garden terrace in the heart of the resort. Like all the other buildings, the Artemis villa is interconnected to the Medical Spa Centre. The Artemis villa consists of 6 rooms, allowing additional privacy to its guests. The villa rooms, the majority of which are spacious apartments, include kitchenettes and come with their own private parking places.

VILLA CARLTON

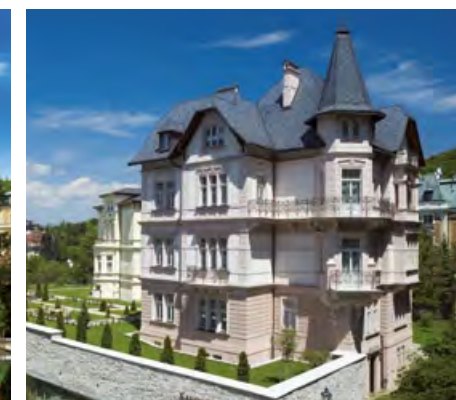

The Carlton villa also dates back to the year 1897 and is situated in a small courtyard at the end of a palm tree alley. The villa consists of 26 rooms. The entire 2nd and 3rd floors of the building host rooms that are classified as Suite and Junior Suite and can also be used as an Executive Floor. The Carlton villa is also directly connected to the Medical Spa Centre, thus providing all possible luxury and comfort even for the most demanding clientele.

VILLA KLEOPATRA

Like the Carlton, the five-storey building that is the villa Kleopatra dates back to the year 1897 and is situated at the end of a palm tree alley. On the right-hand side it neighbors the Savoy villa with which it is interconnected through a glass corridor. There is a total of 31 rooms in the Kleopatra villa. Most of them are west-orientated and afford a beautiful view of a Russian church.

VILLA RUSALKA

The Rusalka villa was built in 1897 and is located at the end of a garden terrace. All of its four floors host rooms which project above the level of the terrace. The villa offers 19 rooms and is closely connected to the Medical Spa Centre with which it is interconnected by an elevator.

- ❖ More than 300 therapeutic, recovery, wellness and beauty treatments
- ❖ Complex and Relax spa treatment
- ❖ Special Medical packages

Local Natural Healing Resources

“Enjoy the healing touch of Karlovy Vary’s nature”

❖ HOT MINERAL SPRINGS

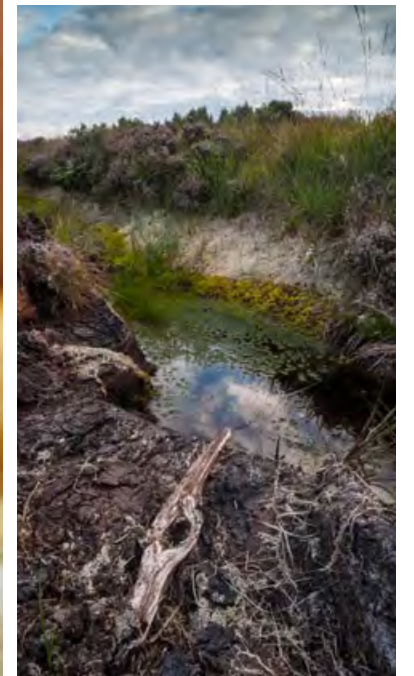

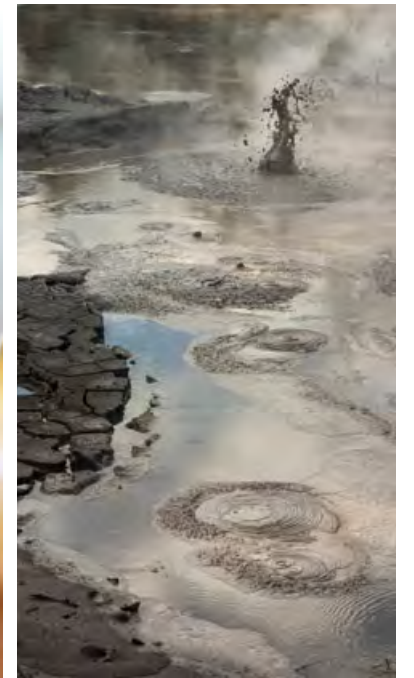

Our baths use only the mineral water abstracted in the Karlovy Vary region. This water is world-known for its unique mineral composition. The main component of the balneotherapy provided in Karlovy Vary is the drinking cure which has beneficial effects on the digestive tract, gastric and intestinal mucosa and which stimulates the proper function of the liver and the pancreas. The oldest components contained in this water are older than 25 000 years.

❖ CARBON DIOXIDE

Carbon dioxide is found in ground mineral waters. The mineral waters abstracted in the Karlovy Vary region, which are used for balneotherapy, are very rich in carbon dioxide. A carbon bath is this one of the essential procedures indicated for the treatment of ischemic and cardiovascular diseases and for the additional treatment of patients who suffered a heart attack. The absorption of carbon dioxide leads to the dilation of blood vessels and thus to better blood supply. As a result, the amount of oxygen in blood is increased and skin as well as muscles and all organs can be properly supplied with oxygenated blood.

❖ PELOIDS – PEAT & HEALING MUD

Peat consists of hundreds of dead plants and contains a large number of nutrients, minerals, natural trace elements and other substances. Only the peat of the highest quality which is obtained near Krasno is used for therapeutic wraps and baths. During these procedures peat releases healing elements which have been accumulating in it for thousands years of maturing. Peat mud can be applied locally or as whole-body wraps. It helps to reduce muscular tension, improves the nutrition of cartilages, connective tissues and intervertebral discs. Highly beneficial is the mixture of peloid and paraffin, which produces so-called parafango.

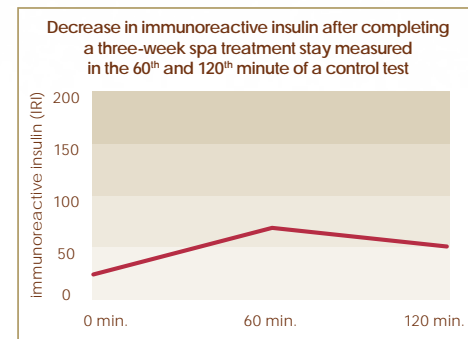

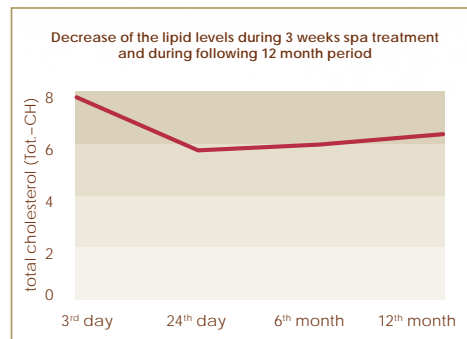

Provable effects of our spa treatment

*“Results of unique combination of the modern spa industry
and traditional balneology”*
