2 SVATOŠ ROCKS

Website

These rocks (Svatošské skály) were named according to the legend of an unfaithful youth called Svatoš. Their shapes resemble those of a wedding procession, so their names are Groom, Bride, Musicians, Best Man, etc. These bizarre rock formations were created by the Ohře River. In 1933 they were designated a protected natural formation and now they are a state reservation. From the popular restaurant on the right bank of the Ohře they can be reached by a romantic suspension bridge.
