

ENVIRONMENTAL PLEDGE

Because the beauty of our region is our greatest asset, Eurotel Montreux has been committed for many years to an approach aimed at reducing the hotel's environmental impact and preserving the resources of our unique and precious landscape.

LOCAL SUPPLIERS

Whether it is food, laundry service, or even graphic design, we are committed to working as locally as possible, because the richness of our region is also expressed through the talent of our local suppliers who are the guarantee of an authentic experience at all levels.

SEASONAL MENU

Inspired by our terroir, our menu evolves according to the seasons according to the products of the market and the creativity of our Chef. From Graubünden salmon to Chasselas du Dézaley, our cuisine favours short tours and the best products of our region's culinary heritage.

HYDRAULIC ELECTRICITY

Our electricity system draws all its energy from hydroelectric power, the leading renewable energy source in Switzerland. Thanks to the choice of this sustainable resource, the hotel's complete operation emits neither polluting emissions nor greenhouse gas emissions.

300ML SOAP

In order to reduce our environmental impact, we offer our customers bottles of 300ml of soap in their rooms. A generous format that allows a significant reduction in plastic waste emitted by the establishment.

SPRING WATER

We encourage our customers to consume tap water in their rooms as well as in the water points of Eurotel Montreux. Made from spring water from Montreux and Le Bouveret, it is one of the best tap water in the world. In addition, ask now for our spring water available in our restaurant.

PLASTIC-FREE KEYCARDS AND REUSABLE STRAWS

With the aim of gradually banning all disposable plastics from the establishment, Eurotel Montreux has replaced its traditional Keycards with FSC fibre-based cards allowing you to access your rooms in complete security. In addition, the hotel has definitively banned single-use straws.

MEDLAR TREE JAM

For breakfast, we offer our guests a jam of medlars from our own harvest, made from trees located just below the Eurotel Montreux. Harvested and processed by our cooking team, these medlars in jam will delight your taste buds with their fruity aromas at the crossroads of apple and pear.

PUBLIC TRANSPORT AND RIVIERACARD

Eurotel Montreux is located a few steps from the bus and train line that connects the city to the regional and national networks. As a guest, you benefit from the RivieraCard, which allows you to travel free of charge by public transport throughout the Riviera.

BIKE AT YOUR DISPOSAL

Our magnificent promenade of the quays, which starts just in front of the Eurotel Montreux, offers wonderful opportunities for cycling. For your comfort, we provide you with bicycles free of charge on request at the reception.

LOW-ENERGY LIGHTBULBS

In order to limit energy consumption within the hotel, we exclusively use ecological LED light bulbs that shine not only for their performance and durability but also for their composition free of toxic products allowing efficient recycling.

WATER FLOW LIMITER

In order to save drinking water consumption, Eurotel Montreux has installed flow control devices in all the bathrooms and water points of the establishment. Without altering your comfort, they allow you to make substantial savings on this vital commodity.

SHEETS AND TOWELS

Eurotel Montreux encourages its guests to reduce their environmental impact by offering to limit the change of towels and sheets every 3 days. A simple gesture that allows everyone to work concretely for the protection of the environment.

SMART WINDOWS

On the entire eastern façade of the establishment, Eurotel Montreux has installed over-glazing films to provide better thermal insulation by filtering out the sun's heat. Smart windows that significantly reduce heat loss.

COMMISSION TO LIMIT WASTE

Eurotel Montreux has set up a special commission within its ranks whose mission is to limit the production of waste by all means deemed useful. Its analysis and judgments enable us to strengthen our commitment to a sustainable management policy on a daily basis. Among the measures undertaken, the installation of water fountains for staff members has drastically reduced the use of plastic bottles.

WATER FILTRATION

In order to save drinking water consumption, Eurotel Montreux has installed flow control devices in all the bathrooms and water points of the establishment. Without altering your comfort, they allow you to make substantial savings on this vital commodity.

HOTCO GROUP

As a member of the HOTCO group under the aegis of the Association Romande des Hôteliers and by agreement with the Confederation, Eurotel Montreux undertakes to make significant efforts.
